## V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

### 1. Statement

Novelty (N)	Claims	1-9	YES
	Claims		NO
Inventive step (IS)	Claims	1-9	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-9	YES
	Claims		NO

### 2. Citations and explanations

#### Claims 1-9

Document 1 [EP, 583074, A1 (Calpis Food Industry Co., Ltd.) 16 February 1994 (16.02.94)] cited in the international search report describes a method for manufacturing angiotensin converting enzyme inhibitor from fermented milk, but it neither describes nor suggests an efficient process for producing fermented milk containing angiotensin converting enzyme inhibitor, which is the technical feature of the inventions set forth in Claims 1-9.

Therefore, the inventions set forth in Claims 1-9 appear to be novel and appear to involve an inventive step.
